Recently, I decided to go on vacation, and because I wouldn’t be online for a while, I gave ownership of my discord server to a friend. Her name is Riri.

She would then, for some reason, decide to release a Google document calling me a pedophile, and stream it to the entire server. This is because she got an internet boyfriend, and she thought I left the internet and was mad because she got a boyfriend? This isn’t true, and I have no idea why she would think this.

@Crucified Slave why did he do it to you

cause i was dating someone
and he got mad at me for that

The document itself is a culmination of out of context jokes, faked screenshots, as well as just straight up lying. Because of this, it’s hard to respond to any of it.

It’s so easy to make up allegations but it’s harder to disprove them. Furthermore, she does a lot of bad-faith stretching which is apparent in the document. She acknowledges that my server was 16+ but then alleges that it’s possible I was secretly keeping the 15 year olds to myself? With no evidence for this. This never happened.

Some of the screenshots are me just talking normally to people, and she accuses me of attempting to groom them, or “being weird” despite the fact that I hadn’t said anything sexual

First, I want to address what is just a flat-out lie straight away

She accuses me of having two younger sisters that I molest; this just isn’t true. I don’t have two younger sisters. In fact, I don't have any. I’m not sure why she would lie about something so blatantly false.

She says my ex-girlfriend was 16 when I was 20. This is a lie. She was a Junior in highschool, and I was a freshman in college. I was 18-19 and she was 16-17. If you find this bad, I don’t really care. It was an in person relationship and both of our families knew our ages.

Riri lied about the age-gap to make it seem worse than it was for some reason, and I know for a fact she knew the age-gap.

What she did when making this document was she would message anyone who ever spoke to me, lying about things I've done, saying I "needed to be stopped" and asking if they had anything embarrassing/dirt on me.

Now, there are a lot of real screenshots which are out of context, some are jokes. But I understand how horrible this looks, for me to just say "UH I WAS JUST JOKING" or "THIS IS OUT OF CONTEXT" looks guilty.

But thankfully, someone shared the DMs he had with her. In which, she straight up admitted that she plans to use out of context jokes and screenshots against me.

The person she was talking to isn't even someone I'd consider a friend, we had a falling out and we stopped talking. But even he realized everything she was saying was bullshit.

She messaged him asking if he had anything he could give her. She said I had " allegations", she would then admit a few messages down that they were all just "these are all just stuff taken out of context, but some believe it lol"

"lol" yeah dude it's so funny that you're planning to slander me as being a pedophile using shit you admit is taken out of context that's so funny!

Despite KNOWING that it was all stuff taken out of context she still used it against me, knowing that people would believe it regardless. Literally admitting the allegations are false.

She kept trying to convince him that even if the screenshots he could provide her were out of context it wouldn't matter, as some people would believe it anyways.

you can admit like
if he just annoyed you or something
ig
i mean if you were fine with that it just sounds like you're a bit

Crucified Slave 7/27/2026 8:48 PM

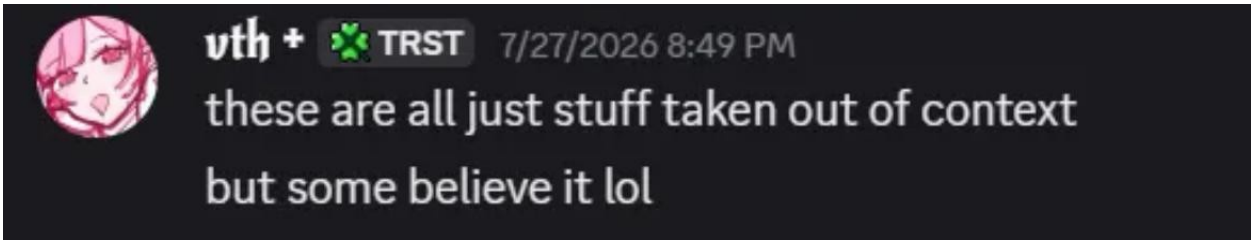
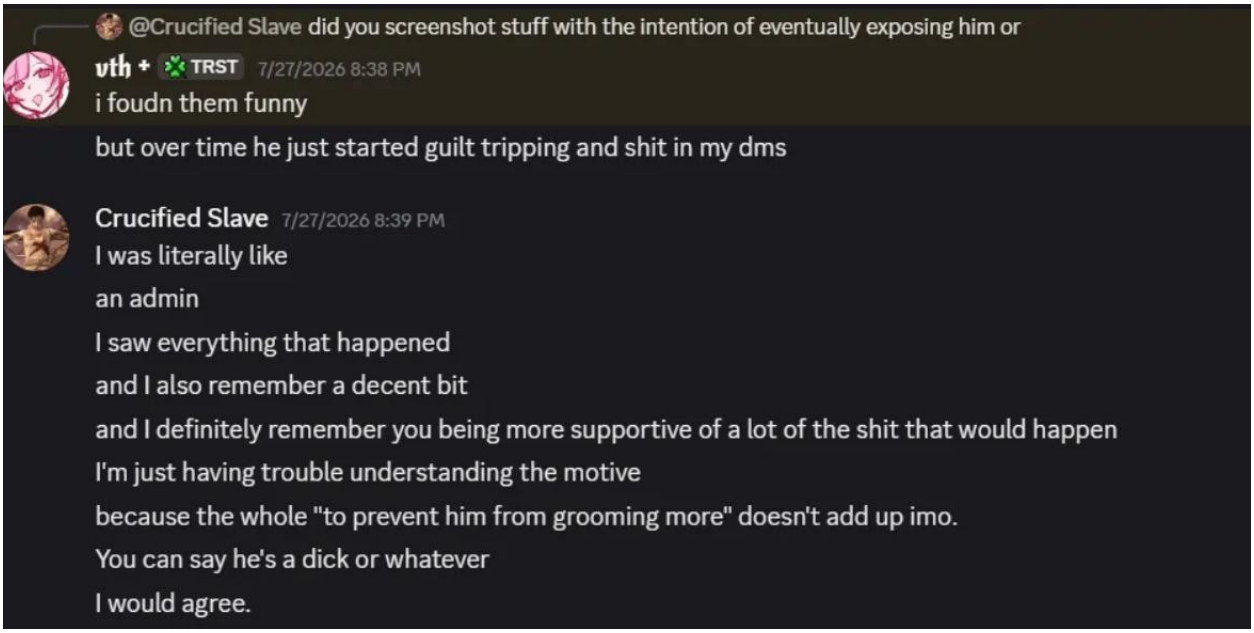
@vth + TRST these are all just stuff taken out of context
Crucified Slave 7/27/2026 8:51 PM
dude this video sucks lol



Thankfully, she also stupidly admitted that the few real screenshots there are were jokes that she “found funny”. But after I “started guilt tripping and shit” she wants to now use them out of context against me.

If these were actual screenshots of me being predatory, why would they be funny? Funny enough to screenshot to look back at later and laugh at?

I understand that a lot of it looks bad, but please just consider how horrible someone can make you out to be if they contacted a dozen people you spoke to and asked for the worst, shitty jokes you said out of context.

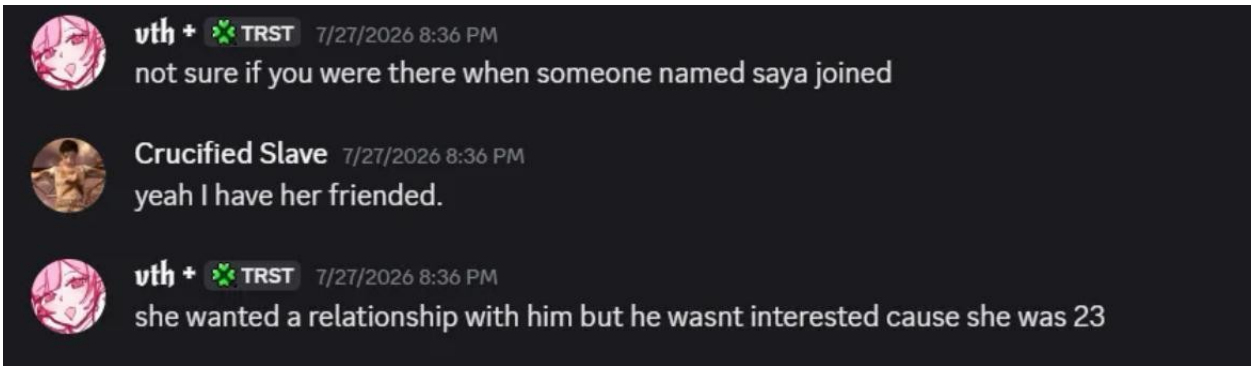


@Crucified Slave did you screenshot stuff with the intention of eventually exposing him or
vth + TRST 7/27/2026 8:38 PM
i foudn them funny
but over time he just started guilt tripping and shit in my dms
Crucified Slave 7/27/2026 8:39 PM
I was literally like
an admin
I saw everything that happened
and I also remember a decent bit
and I definitely remember you being more supportive of a lot of the shit that would happen
I'm just having trouble understanding the motive
because the whole "to prevent him from grooming more" doesn't add up imo.
You can say he's a dick or whatever
I would agree.

She would engage in a lot of the jokes, which is why he said she was “supportive of a lot of the shit that would happen”

We would often quote the “I’m 24 but say I’m 17 on whiz” meme, as well as the “chill pedo” meme. This is why the age 17 is often thrown around. I understand if you want to get mad at me for making inappropriate jokes, but I really hope you can tell the difference between jokes that everyone knew was a joke, and genuine grooming/pedophilia.

She would also accuse me of rejecting a 23 year old girl who asked me out, because I only like girls under 18? This is entirely made up and it’s almost comical how much she’s trying to make up that I’m a pedophile. The idea of me rejecting a girl to her face because she’s two years older than me is so fucking ridiculous.

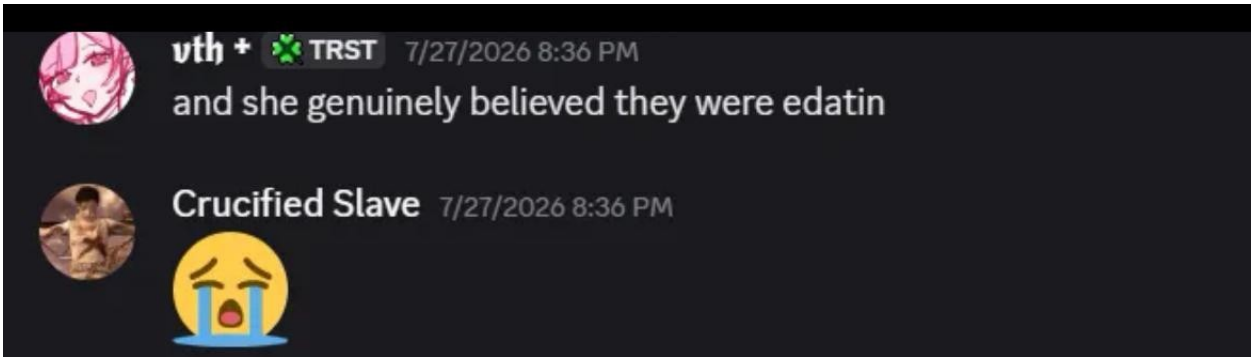


vth + TRST 7/27/2026 8:36 PM
not sure if you were there when someone named saya joined
Crucified Slave 7/27/2026 8:36 PM
yeah I have her friended.
vth + TRST 7/27/2026 8:36 PM
she wanted a relationship with him but he wasnt interested cause she was 23

Please tell me nobody here genuinely believes that to be true.

She got a girl who I was talking to sexually to leak stuff of me, and she’s claiming this girl was 17. She was 19 and in college, she would frequently talk about being in college.

She admitted that this girl was upset and angry after we stoped talking because “she thought we were edating”



If you think I’m weird, I am, but I am not a pedophile. I never sexted with anyone under 18.

Sadly, Riri said a lot more incriminating stuff in voicecalls that were not recorded. Such as openly admitting to lying, and being upset over me not talking to her enough. If you have any recordings of her admitting this, please send them to me.

When it comes to the fabricated screenshots, I don’t know what to say. I can’t debunk them, I can’t do anything to convince you otherwise. Which really sucks. It’s

literally just a he-said she-said, but I hope you think twice about believing someone who outright admitted they wanted to ruin me over false allegations.

When I confronted her on this document, asking why she would do something like this, she at first said her account was hacked after she downloaded “sussy stuff”. After I called her out for this obviously being a lie, she would say that me dating a 16 year old at 20 was fucked up.

I corrected her that I was 18-19 when we dated. She didn’t push back on this. You’d think if she had a real screenshot of me admitting I was 20, she would send that, but no. She totally switches topics, and she would then accuse me of having a “situationship” with a 15 year old. But then would not elaborate on that. I never spoke to a 15 year old, and she doesn’t mention that at all in the document.

If I had to guess, she was planning on making up evidence that I was talking to a 15 year old, but she realized that contradicted one of her other lies in the document. That I “only go for girls 16+ because 15 years olds annoy me”

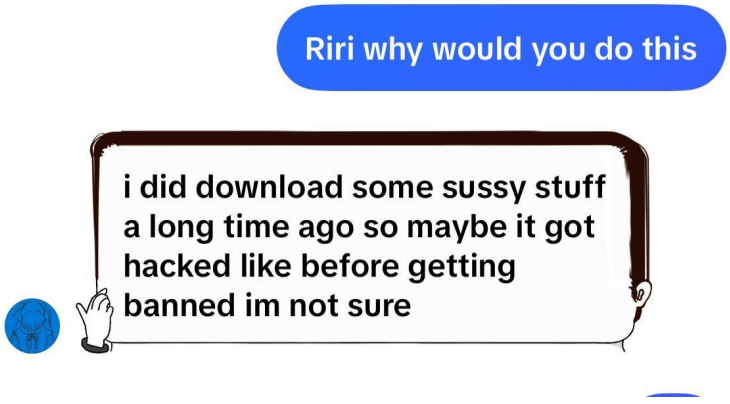
Which I’m not joking is something she unironically claimed.

Her last message to me would be a clearly sarcastic “if it’s all fake then I’m sure you can disprove them somehow” with a sad face.

This whole thing is just so stupid. I don’t see why anyone would do something like this completely out of nowhere. It’s really fucking creepy how obsessive and creepy she’s become over this.

I will continue to make videos, but I obviously will NEVER have another discord server.

To those who waited for more context to be released, thank you. I would appreciate it if you would defend me when someone repeats the untrue claims.



Riri why would you do this
i did download some sussy stuff a long time ago so maybe it got hacked like before getting banned im not sure
